

GEMINI SENSEA™

Elegant, intelligent, modern! GEMINI SENSEA is coming providing more comprehensive solutions for players. A range of innovative improvements ensures better visual presentation, accessibility and multi-functional user-friendly environment, consistent with natural ergonomics.

The new development keeps the essential 'musts' of GEMINI series, including easy serviceability and maintenance, along with player comfort and ergonomics, but GEMINI SENSEA also makes a huge jump ahead in player entertainment and enhanced user features.

Basic Features and Options:

- Dual 16:10 Panorama LCD display
- 7 " Auxiliary display
- Touch screen
- Bill acceptors
- Coin acceptor and hopper
- Online casino management system panel
- Printer ready

Advanced features and options

The most important innovation, a first in the gaming industry, is the innovative 'Crystal touch' sensor keyboard buttons, ensuring instant player control and user-friendly intuitive play.

Panorama LCD displays provide better viewing area for greater visual impact; a 3rd auxiliary monitor provides a real-time entertainment broadcast; an improved stereo sound system focuses the sound towards the player, limiting the accidental noise interference to adjacent automats, and many other great features allow the player to enjoy the game and to receive enhanced sensations during the play.
